FLAPS

**Fly Higher!
Retail POS System**

Flaps Retail POS software presents very user friendly interface, combined with powerful Role Management System, which enables anyone to easily handle inventory and sales counter. Flaps has a unique built-in editor for Labels, so you can easily create and edit all kind of labels when you need.

Flaps Retail POS software's reporting system is powerful and customizable. It streamlines retail operations by automating the transaction process and tracking important sales data. You can track inventory changes, pricing accuracy, gross revenue and sales patterns. Flaps monitor inventory and buying trends that will help retailers avoid customer service issues, such as out-of-stock sales, and tailor purchasing and marketing to consumer behaviour.
